### ***RESTRICTION REQUIREMENT***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

**Group I. Claims 1-5,7,8 and 35-43**, drawn to a packaging machine controlling various mechanism of the machine, classified in Class 53, subclass 48.4.

**Group II. Claims 9-15,17-21 and 24**, drawn to a packaging machine controlling the application jaws, classified in Class 53, subclass 201.

The inventions are distinct, each from the other, because of the following reasons:

The inventions of Groups I and II are related as **subcombinations disclosed as useable together in a single combination**. The subcombinations are distinct from each other if they are shown to be separately useable. In the instant case, each of the inventions has separate utility because it can be used without the specifics of the other of group (See MPEP 806.05(d)). For example, the Group I invention can be used without adjusting the jaws.

Because these inventions are distinct for the reasons given above, and because they have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes, as indicated, is proper.

Applicant is advised that the response to this requirement, to be complete, must include an election of the invention to be examined even if the restriction requirement is traversed.

During a telephone conversation between Examiner John Sipos and Mr. K. D. Erickson, attorney of record in this case, on June 10, 2005, a provisional election was made with traverse to prosecute the invention of Group I comprising claims 1-5,7,8 and 35-43. Claims 9-15,17-21 and 24 are withdrawn from further consideration by the examiner as being drawn to a non-elected invention. (See 37 CFR 1.142(b)). An action on the merits of the elected claims follows.

Applicant is reminded that, upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h). Applicant should further amend the title, in necessary, to reflect the elected invention.

### ***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. K. D. Erickson on June 10, 2005.

Claims 9-15,17-21 and 24 have been cancelled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
